## PROFESSIONAL SUMMARY

Front-end developer and UX/UI designer with experience contributing to startup product design, responsive web interfaces, and digital branding. Build interactive projects with HTML, CSS, JavaScript, React, and Python; translate designs into usable interfaces with Figma, Next.js, and Tailwind CSS. Focused on accessible, user-centered experiences and collaborative product development. Seeking junior front-end, UI developer, or UX/UI design–development opportunities.

## TECHNICAL SKILLS

Front-end: HTML5, CSS3, JavaScript (ES6+), React, Redux, Next.js, Tailwind CSS, Bootstrap, responsive design, DOM manipulation

Development: Git, GitHub, VS Code, Node.js, REST API integration, Python, Pygame, Flutter (foundational)

UX/UI & visual design: Figma, wireframing, prototyping, interaction design, accessibility, user research, Adobe Illustrator, Photoshop, InDesign

## RELEVANT EXPERIENCE

Quiri — UX/UI Designer & Front-End Developer | Toronto, ON | Jul 2023–Present

- Collaborate with designers and developers on UX/UI, visual identity, and product experiences for a conversation-focused startup.
- Contributed to logo and web design; designed the landing-page hero section and implemented front-end interface work using Next.js and Tailwind CSS.
- Created UI prototypes and components, including a Flutter chat-bubble interface; collaborated through GitHub workflows and code review.

Freelance — Web Developer, UX/UI & Graphic Designer | Toronto, ON | Apr 2023–Present

- Designed and built websites and responsive interfaces; developed user flows and visual concepts for web and mobile experiences.
- Produced brand graphics, logos, and marketing assets using design and front-end tools.

**Chocolati Café — Digital Project Manager & Lead Designer | Seattle, WA | Aug 2022–Mar 2023 |**

- Managed digital design deliverables for e-commerce, social media campaigns, promotional materials, and product packaging.
- Created labels, advertising graphics, and website assets; coordinated requirements and design production for product launches.

## SELECTED TECHNICAL PROJECTS

**Interactive Portfolio Website | HTML, CSS, JavaScript, Bootstrap | christinajsuzuki.github.io |**

- Built a multi-page portfolio featuring a JavaScript project carousel, keyboard-accessible flip cards, and an interactive design gallery with animated capsule reveals and media modals.

**Space Battle & Credit Card Checker | Python, Pygame, JavaScript, Node.js |**

- Developed a two-player arcade shooter in Pygame and a JavaScript credit-card validation utility using the Luhn algorithm; source code available on GitHub.

**Jammming Spotify Playlist App | React, JavaScript, Spotify API |**

- Built a React application to search Spotify tracks, manage playlist state, and save custom playlists through Spotify API integration.
